

Intruder Alarms

Servicing & Maintenance Packages

Every one of our installations is backed up by a maintenance package. Without maintenance even the most effective equipment will deteriorate. It is therefore important that a qualified Technician carries out regular maintenance checks. This will ensure your equipment meets current health and safety standards and will prevent future failure or faults.

We have appointed a dedicated Dispatch Coordinator who is responsible for our servicing schedule and the deployment of our Technicians' team, who can be reached at **662-1997** or **663-3887**. This ensures our maintenance appointments are always completed on time.

With all of our services we offer 3 grades of maintenance packages to suit different requirements.

Intruder Alarms Servicing and Maintenance Packages

Our alarm maintenance packages are graded into three distinct categories. Select from our Gold , Silver and Bronze packages depending on your preference.
